

NICRA team visits Chugawa village under *Swachchhta Pakhwada* on December 24, 2020

NICRA team visited Chugawa village under *Swachchhta Pakhwada* December 16-31, 2020. During this visit NICRA team interacted with specially with women for improving hygiene condition in home as well as in whole village. Further, team also interacted with dairy farmers of village discussed about sanitation around animal sheds and its benefits for improving health of whole family. Team also emphasized on proper diet of animals for improving milk production and explained that due to hygiene conditions we may save our animals from bacterial diseases especially mastitis. Hence, due to sanitation around animal sheds farmers can produce clean milk which will be beneficial for end user.
