No. 6895 /PA-CO

Dated-- 12.07.2021

**Subject: Low Coverage of Covid-19 Vaccination among Front Line Workers – a cause of concern.**

In 1<sup>st</sup> and 2<sup>nd</sup> wave of COVID-19 many persons were affected and only way of prevention and containment is proper use of Mask & social distancing along with vaccination against COVID-19 which is very effective in preventing severity of disease & reduces chances of hospitalization significantly. The coverage of 1<sup>st</sup> dose for Covid-19 vaccination for FLWs (Front line workers) is very low in district (only 37%) & similar is the case for 2<sup>nd</sup> dose coverage among FLWs. Since Covid-19 vaccination for FLWs started in Feb. 2021, it is not a good indicator to have such low percentage of 1<sup>st</sup> dose & 2<sup>nd</sup> dose. So kindly ensure that all FLWs and other persons working in your offices should get vaccinated on priority base for the 1<sup>st</sup> dose for all those beneficiaries who have not been vaccinated & also all those FLWs who have been vaccinated for 1<sup>st</sup> dose should get themselves vaccinated for 2<sup>nd</sup> dose at the earliest to avail full advantage of vaccination.
